News Item - Size: 31.00cm²

STREETWISE Briefs DRILLING has begun at the site for the Urquhart Bauxite project near Weipa, 820km northwest of Cairns. Results of the drilling campaign will be used for the project's pre-feasibility study. The 186-hole drill program is expected to be completed over the next two weeks. "The program will . assist detailed mine planning at Urquhart Bauxite project for the planned commencement of operations in the first half of 2017," said Metallica CEO Simon Slesarewich.
